We work exclusively on the basis of the General German Freight Forwarder Conditions, always in the latest version. In Section 23 ADSP, these limit the legal liability for damage to goods in accordance with Section 43 of the German Commercial Code (HGB), for example, the custody of the shipping company to 5 euros/kg; for multimodal transport, including the transport of 2 SDRs/kg, and per claim or event to a million of 2 million euros, and 2 SDR/kg, whichever is higher. In addition, it is agreed that Section 27 ADSP neither extends the liability of the freight forwarder nor the attribution of the fault of people or other third parties in favor of the client, deviating from legal regulations such as Art. 25 M. 2^o, Art. 36 CIM, Art. 21 CMNI, § 660 HGB.
